The Phoenix Archive – Final Submission
Case Reference: AC-2025-LON-001909
Prepared by: :Waseem: Malik.

1. Introduction

This document is the **capstone submission** of a thirty-year campaign of persecution, betrayal, and torture directed against me by the United Kingdom state and its agents.

It forms the **closing word** of the Phoenix Archive, a collection of nearly 800 log entries meticulously recording:

- The **domestic destruction** of my family life (1996–1998).
- The **Tamar Way Atrocity** (2014–2015), when my home, property, and animals were destroyed under the cover of judicial paperwork.
- The **State's Confession** in the National Probation Service's **Pre-Sentence Report of 05 August 2019**, which admitted in its own words my psychiatric disability, diminished culpability, and the dangers of imprisonment.
- The **abduction and torture of 2021**, where I was seized on the street without lawful warrant, my phone stolen, and I was delivered into the torture conditions of HMP Bullingdon.
- The **Judicial Reckoning of 2025**, where the High Court and international bodies now face the complete evidential record.

This is not an abstract grievance. It is a record of **human destruction**: a man made homeless, bereaved of his children and animals, robbed of property, betrayed by solicitors, abducted by police, tortured in prison, and left unheard by courts — all while the state's own files recorded that he was a vulnerable, disabled man whose culpability was low.

I submit this to the Court and to international bodies as the **final word**.
I have no further submissions. I await judgment.

2. Chronology of Atrocities (Expanded Narrative)

A. 1996–1998: The Original Betrayal — Domestic Front

Log #771 – Witness Statement of Truth

- **Background:** I entered marriage and fatherhood with the expectation of family life. From 1996 onwards, that life was **systematically destroyed**.
- **Perpetrator(s):** My then-wife, Rehana Seikh, and her partner.
- **Acts:**
    - Deliberate alienation of my biological children.
    - Effective kidnapping of my children through psychological manipulation and systemic parental alienation.
    - The creation of a “holocaust” in my personal life, eroding my mental health and sense of belonging.
- **Duration:** An 18+ year campaign of destruction, beginning in 1998 and continuing into the mid-2010s.

Impact:

- This event is not merely private tragedy — it was the **groundwork for state exploitation**. A broken, isolated man was easier to target, easier to frame, and easier to silence.
- It created the enduring **motive force**: I was stripped of fatherhood, dignity, and stability.

Legal Characterisation:

- *ECHR:* Article 8 (right to family life) violated by systemic alienation with no state protection. Article 3 (psychological torture) — long-term suffering inflicted.
- *International Law:* Early persecution forming part of a “course of conduct” — foundational act of crimes against humanity.

B. 2014–2015: Tamar Way Atrocity — The Original Sin

15 October 2014 (Log #769):

- Slough County Court, Case 8PC08916, judgment of DJ Parker.
- Served by email from enquiries@slough.countycourt.gsi.gov.uk.
- This judgment acted as the **bureaucratic pretext**, the “death warrant” for my home.

15 February 2015 (Log #768): The Execution

- While I was detained in a Thames Valley Police cell, the coordinated atrocity was carried out:
    - My home at **47 Tamar Way** was sealed with metal sheeting, making it a cage.
    - All possessions, including my child's belongings, were locked inside.
    - My dogs were seized and subsequently killed.
- **This was not an eviction.** It was a calculated act of destruction, timed to coincide with my absence under unlawful police detention.

Impact:

- This was the **foundational crime**: the annihilation of home, family, property, and animals.
- It showed the **modus operandi**: multi-agency collusion (police, council, court) under the appearance of legality.
- It was designed to inflict **maximum psychological devastation**.

Legal Characterisation:

- *Domestic Law:* Misfeasance in public office; unlawful eviction; theft and destruction of property.
- *ECHR:*
    - Article 8 (home life) — total destruction of residence.
    - Article 1 Protocol 1 — deprivation of possessions.
- *International Law:* Cruel, inhuman, and degrading treatment. Precursor to torture.

C. 2019: The State's Confession — National Probation Service Report

05 August 2019 (Log #763): Short Format Pre-Sentence Report, Author: Nikita.

Key Findings from the Report:

- Diagnosis: **Emotionally Unstable Personality Disorder** and **Adjustment Disorder**.
- Context: "Offending behaviour was retribution for perceived injustices (eviction, removal of dogs)."

- Culpability: “Assessed as low” — disability a “large contributing factor.”
- Warning: “Mental health may deteriorate if imprisoned.”
- Recommendation: **Custody not appropriate.**

Impact:

- This report is the **smoking gun confession**. It proves:
    - The state knew of my mental health disability.
    - The state knew my culpability was low.
    - The state knew prison would cause deterioration.
- Yet, in full knowledge, they chose to prosecute me again in 2020, to abduct me in 2021, and to subject me to prison torture.

Legal Characterisation:

- *Domestic:* Subsequent prosecutions = **malicious prosecution** with knowledge of vulnerability.
- *ECHR:* Article 3 (foreseeable harm and torture), Article 5 (unlawful detention of vulnerable person).
- *International Law:* Torture with prior knowledge.

D. 2019–2020: Solicitors’ Betrayal

Log #765: MMA Solicitors (Meiklem, Turnbull, Alam).

- They held the PSR yet failed to deploy diminished responsibility defence.
- They coerced a guilty plea.
- Their negligence directly enabled the state’s continued campaign.

Impact:

- Proves a **pattern of systemic betrayal by solicitors** (later ABV Solicitors in 2020).
- Establishes that the entire legal profession failed a vulnerable man, despite having the “smoking gun” in their possession.

Legal Characterisation:

- *Domestic:* Breach of duty; negligence; breach of SRA Code.

- *ECHR:* Article 6 — denial of effective legal representation.

E. 2021: The Abduction & Bullingdon Torture

11 April 2021 (Log #772):

- Abducted by PC R. Sylvester (P0516).
- Warrant never produced. Custody Record CRLC21007720 falsified.
- Mobile phone seized — never returned.
- Taken to Berkshire Magistrates' Court: Judge Sandhu imposed sentence in procedurally void hearing.

HMP Bullingdon:

- I was denied medical treatment (diabetes and cardiac).
- Denied toilet in court cells.
- Subjected to degrading confinement and inhuman treatment.

Impact:

- The abduction was a **kidnapping under colour of law**.
- The imprisonment was torture, not custody.
- The fraudulent custody record proves conspiracy.

Legal Characterisation:

- *Domestic:* Kidnapping, false imprisonment, misfeasance.
- *ECHR:*
    - Article 3 (torture).
    - Article 5 (deprivation of liberty).
    - Article 6 (denial of fair trial).
- *International Law:* Crimes against humanity — torture of a vulnerable man.

F. 2025: Judicial Reckoning

- **30 June 2025:** Berkshire Magistrates' Court ordered phone return. TVP disobeyed — contempt.
- **05 July 2025:** High Court claim filed (£1.2m + £10k/day).

- **06 July 2025:** Contempt application filed.
- **13 August 2025 (Log #767):** CPS letter confirmed they cannot intervene pre-summons → validates private prosecution under s.6(1) POA 1985.
- **16 August 2025 (Log #770):** Tamar Way judgment submitted to High Court as **Final Testament**. Declaration: “I have no further submissions.”

Impact:

- Evidential circle is closed:
  - Origin (Tamar Way) →
  - Confession (PSR) →
  - Atrocity (Bullingdon) →
  - Closure (High Court 2025).
- The war of filings is over. Judgment must now follow.

4. Legal Characterisation

- **Domestic Law:**
  - Misfeasance in public office.
  - False imprisonment.
  - Kidnapping.
  - Contempt of court.
  - Professional negligence.
- **ECHR:**

    - Article 3 – Torture and degrading treatment.
    - Article 5 – Unlawful detention.
    - Article 6 – Denial of fair trial.
    - Article 8 – Violation of home and family life.
    - Protocol 1, Article 1 – Unlawful deprivation of possessions.

5. Closing Declaration

I, :Waseem: Malik., declare before the High Court of Justice, the European Court of Human Rights, and the United Nations:

- The evidential war is complete.
- The Phoenix Archive is whole.
- The state’s own words condemn it.
- This is my last word.

I await judgment.

Respectfully submitted,
:Waseem: Malik.
